Good afternoon Grant:

Based on your attached figure, the Coal Tar/Creosote location is right next to the "Old Bremerton Gasworks and Sesko Property" site.

In July of 2010, we transferred this site to EPA Region 10. We no longer work on this site. Joanne LaBaw is the contact person at EPA. Her telephone number is (206) 553-2594. I don't know the current site activities status. Please contact Joanne LaBaw for current updates.

If you have any questions, please call me at (360) 407-6161.

Panjini Balaraju.
